HOUSE JOURNAL

SESSION 1973

FIRST DAY

HOUSE OF REPRESENTATIVES
Wednesday, January 10, 1973

This day, in accordance with the Constitution of the State of North Carolina and G. S. 120-11.1, which fixes the date for the meeting of the General Assembly of North Carolina, the members of the House of Representatives assemble in the House Chamber of the State Legislative Building in the City of Raleigh at 12:00 Noon and are called to order by the Honorable Thad Eure, Secretary of State.

Prayer is offered by the Reverend John K. Ormond, Jr., Associate Pastor of Edenton Street Methodist Church in Raleigh:

"Most Gracious Lord, Our Father:

"As we bow our heads, our hearts are full of excitement, joy, anticipation and thankfulness. We are thankful for this great State and this great people, with its heritage of freedom and justice and concern, and its hope for their greater realization. We are excited about the confidence that has been placed in these lives and we rejoice in the privilege of sharing together in a vision of hope and mutual progress. With eager anticipation, we stand ready to give ourselves to new challenges, new dreams, new opportunities.

"Inspire in us, Lord, a constancy of faith, that the euphoria of this moment will not be fleeting. Keep us vibrant with your presence and enable us to be truly responsive to the needs of your people and to the future that we share. Grant us strength and insight, that our work might be marked by the beauty of its wisdom and the joy of its wholeness.

"This we pray, Lord, in your loving name. Amen."

The roll is called and all of the following members-elect answer when their names are called, appear with proper certificates of election, take and subscribe to the following oath of office, which is administered by the Honorable Carlisle W. Higgins, Associate Justice of the Supreme Court of North Carolina.

OATH FOR MEMBERS OF THE HOUSE OF REPRESENTATIVES

"I solemnly swear that I will support and maintain the Constitution and laws of the United States; and,

"I do solemnly and sincerely swear that I will be faithful and bear true allegiance to the State of North Carolina, and to the constitutional powers and authorities which are or may be established for the government thereof; and that I will endeavor to support, maintain and defend the Constitution and laws of said State, not inconsistent with the Constitution of the United States, to the best of my knowledge and ability; and,

"I do solemnly swear that I will faithfully discharge my duties as a Member of the House of Representatives of the 1973 General Assembly of the State of North Carolina to the best of my skill and ability, according to law, so help me, God."

One-hundred-twenty members having answered the roll call, the Secretary of State declares a quorum is present.

The Secretary of State announces that the first order of business is the election of a Speaker and declares that nominations are in order:

ELECTION OF OFFICERS

Representative Stewart places in nomination the name of Representative James E. Ramsey of Person County for Speaker of the 1973 House of Representatives.

"In recent years, the office of Speaker of the House of Representatives has assumed increasing importance. North Carolina's experience in this respect is really part of a national trend, for throughout the country during the last decade has come the realization that unless state legislatures move away from the inertia of the past, they might as well prepare to transfer those few remaining exclusive state prerogatives to the federal government.

"The election of the 20th century's first Republican governor in our state and the advent of a genuine two party system means that this process of reassertion of power by state legislatures — this process of modernization and reform must be accelerated.

"No person who has come to this House in many years is better prepared by temperament or sheer intellectual capacity to respond to the challenge of this unique legislative session than is Jim Ramsey. His poise, his bearing, and his genteel manner belie the background of a farmer's son and those early years of struggle which finally led to an A.B. degree at UNC in 1953. He graduated from UNC law school in 1958 having served as president of the law school student body. In addition, he had been elected Judge of the Person County Recorders Court before graduating from law school. He was elected to the General Assembly

in 1963 and is beginning his sixth successive term. He has been deeply involved in the civic, spiritual, and cultural life of his community.

"Somehow, he and Eunice have had time to get their four wonderful children off to a good start. And if you wandered over by Roxboro on a given Saturday afternoon, you'll likely find Jim pursuing his most avid hobby, that of restoring old buggies — adding to a collection which now attracts regional interest.

"All this, it seems to me, rounds out the portrait of a young man who has lived a vigorous and thoughtful life, and who is now prepared to accept the summons of this House to an even higher level of service. I am honored to place in nomination for Speaker of the 1973 House of Representatives, the name of James Edward Ramsey."

The nomination is seconded by Representative C. W. Phillips.

"Mr. Speaker, Members of the House:

"I rise to second the nomination of James E. Ramsey as Speaker of the 1973 House of Representatives.

"When I came to the Legislature, Jim was in his second term. Due to his youth and my age, I took the liberty of giving him some fatherly advice. In taking that advice and many other things that were much better, of course, he has developed into a real leader and risen to his present position as the top man in our group.

"It is my sincere belief that Jim will serve us well and direct us into an outstanding session.

"It is with real pride that I second the nomination of Representative Ramsey as our Speaker."

The nomination is also seconded by Representative Norwood E. Bryan, Jr.

"The beginning of each session of the General Assembly is frequently the occasion for a moment of optimism; an interval, usually brief, during which the problems of the past become secondary to the bright prospects of the future.

"This is such a moment. Today, we begin anew, and several months from now we will conclude, still another chapter in the story of self government. Today, the spirit is high, and there seems to be energy enough to last until the summer. Money, however, may be another matter.

"It is my belief that the spirit of optimism will prevail far longer this year than it has in the past, for change is everywhere for all to see. New faces and enthusiasm for getting the job done are transforming the government of our State. New leadership, equal to the tasks ahead, stands ready.

"Pre-eminent among these new leaders is Jim Ramsey. His competence and fairness are well known. He enjoys the respect and affection of the members of this House. It is, therefore, with great pleasure that I second his nomination for Speaker."

There being no further nominations, the Secretary of State declares the nominations closed and requests that the roll of the House be called. The following members vote for Representative Ramsey: Representatives Arnold, Auman, Baker, Barker, Beard, Bell, Bissell, Blackwell, Boger, Bradley, Bright, Brown of Stanly, Brown of Wilkes, Bryan, Bumgardner, Bundy, Campbell, Chase, Cobb, Davenport, Davis, DeBruhl, Dorsey, Eagles, Everett, Falls, Farmer, Fenner, Foster, Frye, Fulton, Gamble, Gardner, Garner, Gilmore, Green of Bladen, Greene of Watauga, Hall, Harkins, Harrelson, Harris, Haynes, Hege, Hiatt, High, Hightower, Hise, Holmes, Hunt of Cleveland, Hunt of Orange, Hunter, Huskins, Hutchins, Hyde, James of Onslow, James of Pasquotank, Jernigan of Cumberland, Jernigan of Hertford, Johnson of Robeson, Johnson of Wake, Jones, Jordan, Josey, Keesee, Kemp, Lawing, Lilley, Long, Love, McDaniel, McKnight, Mashburn, Mason, Mathis, Messer, Michaux, Miller, Mitchell, Mohn, Morris, Owen, Payne, Phillips, Powell, Purrington, Quinn, Ramsey, Redding, Revelle, Rhodes, Roberson, Rogers, Rountree, Sawyer, Schwartz, Smith, Soles, Speros, Spoon, Stevens of Buncombe, Stevens of Caldwell, Stewart, Tally, Tart, Thomas, Tison of Mecklenburg, Tolbert, Tomlin, Twiggs, Tyson of Cumberland, Warlick, Watkins, Webb, Whichard, White of Dare, White of Robeson, Woodard, Wright, and Wynne.

Mr. Ramsey having received all the votes is declared Speaker.

The Speaker, escorted to the Chair by Representatives Blackwell, Twiggs, Stevens of Buncombe, and Jernigan of Hertford, takes and subscribes to the following oath of office administered by the Honorable Joseph Branch, Associate Justice of the Supreme Court of North Carolina.

"I, James E. Ramsey, do solemnly swear that I will support the Constitution of the United States, and I do solemnly and sincerely swear that I will be faithful and bear true allegiance to the State of North Carolina and to the constitutional powers and authorities which are or may be established for the government thereof; and that I will endeavor to support, maintain, and defend the Constitution of said State not inconsistent with the Constitution of the United States, to the best of my knowledge and ability; and I do solemnly and sincerely swear that I will well and truly and faithfully execute and discharge the duties of the Office of Speaker of the House of Representatives of the North Carolina General Assembly according to the best of my skill and ability, according to law; so help me, God."

The Speaker, Mr. Ramsey, approaches the dais and makes the following remarks:

"Fellow members of the House of Representatives; honored guests; ladies and gentlemen:

"In my judgment no greater honor can come to one who is profoundly interested in the well-being of our State than the honor which you, my fellow members of the House of Representatives have just accorded me. I am humbly grateful to you. I am conscious of the grave, yet challenging opportunities for service to our state which your action provides you and me. I accept the responsibilities of the Office of Speaker of the House of

Representatives — and I accept also this challenge for service, with equal gravity, humility and zeal.

"Ours is a rare privilege. We are members of a great and powerful deliberative body. In our effort to keep the oath of office which each of us has taken, we must remember that consideration of that which is in the best interests of the State of North Carolina and her people is paramount to all other considerations. Certainly there will be differences of opinion on the question of what is in the best interests of our people and of the state. These differences will be zealously put forward in committee and on the floor of the House — and this is the life of legislation. Usually the best legislation which is enacted by the General Assembly is that which has been hammered out on the anvil of public debate both in committee and on the floors of the House and Senate.

"Conscientious attention to legislative business, orderly procedure, obedience to rules, and to decorum, all enhance the quality of legislation and the dispatch of business, besides being necessary attributes of statesmanship. In contemplating the performance of the duties of my office as Speaker of the House, and my obligation to you, I have become acutely aware of the differences between the purposes and conduct of a statesman and a politician.

"A statesman (as defined by Webster) is one who exercises political leadership wisely and without narrow partisanship in the general interest. A politician (as defined by Webster) is one primarily interested in political offices from selfish or other narrow, usually short-run interests.

"I do not expect that all members of this Body at all time will think and act as a statesman, but I do expect that the ultimate collective decisions of this Body will reflect the quality of pure statesmanship. I will remain constantly aware that the exercise of leadership must be done fairly and justly, and without resort to narrow partisanship. This will be done in an effort to promote statesmanship.

"Statesmanship is required in the proper consideration of the state's business and the rights and interests of the taxpayers of North Carolina. It is my hope and desire that all bills coming before the House of Representatives will be considered fairly and fully upon their respective merits. It is my intent and purpose, that within the rules of decorum and orderly procedure, each member of this House shall be accorded a fair and reasonable opportunity to be heard upon the merits of matters coming before us. To these ends I ask your patience and your cooperation, so that when we adjourn, we can rest comfortably in the knowledge that we have earnestly and honestly undertaken to keep the faith with our people and to protect and advance the interests and progress of our State."

The Speaker assumes the duties of the Chair.

On motion of Representative Jones, the rules of the House of Representatives for 1971 are adopted as temporary rules for the 1973 House of Representatives.

Representative High offers the following amendment to the temporary rules which is adopted.

"Amend the temporary Rules of the 1973 House of Representatives by deleting the following:

'Rule 1. Convening Hour. The House shall convene each legislative day at the hour fixed by the House. In the event the House adjourns on the preceding legislative day without having fixed an hour for reconvening, the House shall convene on the next legislative day at twelve o'clock noon.'

and insert in lieu thereof the following:

'Rule 1. Convening Hour. The House shall convene each legislative day at the hour fixed by the House. In the event the House adjourns on the preceding legislative day without having fixed an hour for reconvening, the House shall convene on the next legislative day at two-thirty p.m.'

"Further amend the temporary Rules of the 1973 House of Representatives by deleting the following:

'Rule 6 (b): In the event the Speaker, by reason of physical or mental incapacity, is unable to perform the duties of the Chair, the Chairman of the Rules Committee shall be Speaker pro tempore, and shall perform all of the duties of the Speaker until such time as the Speaker may assume the Chair.'

and insert in lieu thereof the following:

'Rule 6 (b): The House shall elect one of its members Speaker pro tempore who shall perform such duties as the Speaker may assign and shall preside over the House in the absence or incapacity of the Speaker, and shall perform all of the duties of the Speaker until such time as the Speaker may assume the Chair.'"

edge and ability; and I do solemnly and sincerely swear that I will well and truly and faithfully execute and discharge the duties of the Office of Sergeant-at-Arms of the House of Representatives of the North Carolina General Assembly according to the best of my skill and ability, according to law; so help me, God."

Representative Jones addresses the House:

"Mr. Speaker, ladies and gentlemen of the House, I request that this House will adjourn tonight in honor of the memory of our 36th President, Lyndon Baines Johnson, our last surviving former President. Mr. Johnson rose through the legislative branch as a Congressman, a United States Senator; served as Vice President, and then President of the United States. The former President, age 64, was stricken with a heart attack at the LBJ Ranch and was flown to Brooke General Hospital in San Antonio, where he was pronounced dead on arrival. Mrs. Johnson was notified and flew to San Antonio where she is now. Funeral arrangements are incomplete. When Mr. Johnson left the White House, he left with memories of triumph and tragedy, with hopes and with disappointments. Of history's verdict, he said, 'I believe that at least history will say "we tried". I want to be the President who educated young children to the wonders of their world. I want to be the President who helped to feed the hungry. I want to be the President who protected the right of every citizen to vote in every election. I want to be the President who helped to end hatred among the people of all races, and I want to be the President who helped to end the war.' Backed by the biggest majority of his party in Congress in more than a generation, he put some of his great society hopes into law — Medicare, bigger Social Security benefits, the flow of

billions of dollars for education and schools, Departments of Transportation and Housing, and Urban Development, the appointment of the first black to the cabinet, new auto safety standards, a voting rights act, a multi-billion dollar attack against poverty and pollution. There was never any question about Mr. Johnson's personality being strong. It was described as forceful, dynamic and powerful. Many found his personality too overwhelming for their taste, but they knew when he entered a room that there was a man of stature. I am confident that history will record that 'he tried'."

On Representative Jones' adjournment motion, which is seconded by Representative Speros, the House adjourns to reconvene tomorrow at 2:30 P.M.

PERSONAL PRIVILEGE

Representative Jordan makes the following statement:

"Mr. Speaker, Ladies and Gentlemen of the House: A great man once said that although he disagreed with a person's view that he would 'fight to the death a man's right to disagree.' I think we need to reflect on this premise in light of yesterday's action of the North Carolina Senate with regard to the Equal Rights Amendment.

"Two Senators have been severely criticized for having changed their vote contrary to promises or commitments made during the last political campaign. In the words of William Shakespeare's eloquent speech made by Mark Anthony at the Forum after the murder of Julius Caesar, 'The evil that men do lives after them, the good is oft interred with their bones. So let it be with Caesar.' There are those who would apply the same to the two Senators who 'switched' their vote and I would think this to be grossly unfair.

"We must remember that as Senators and Representatives that we are elected to make decisions in the best interest of the State of North Carolina. Even though elected from districts, we are officers of the State and our primary interest is the concern of the whole State first and our district second. Many people do not hold to that theory, but it is in fact true.

"If it is, as I suspect, that these two men changed their vote as a matter of conscience and their concern for the State as a whole, then I do not believe that these men should be subjected to the abuse that they have already received.

"I hope that none of what I have said will be construed as complying with the views of the two Senators who switched, because I disagree. Yet, we

are not going to be able to debate the issue of the Equal Rights Amendment here in the House and I want to go on record, to state unequivocally, without hesitation, without reservation, without any doubt that I do support the concept of the Equal Rights Amendment; that I have and will continue to work for eventual ratification of the Amendment; that I will not waiver or change in my support of this measure and therefore request, Mr. Speaker, that my remarks be spread upon the Journal."

CONFERENCE COMMITTEE REPORT

Representative Mohn sends forth a Conferees' Report on S. B. 206, AN ACT TO PLACE ONSLOW COUNTY UNDER THE FEDERAL LAW REGARDING BAIL BONDSMEN AND RUNNERS, and moves that it be adopted.

APPENDIX

ADDRESS TO THE NORTH CAROLINA GENERAL ASSEMBLY IN JOINT SESSION BY GOVERNOR JAMES E. HOLSHOUSER, JR. JANUARY 17, 1973

Mr. President, Mr. Speaker, Members of the General Assembly.

We gather here today facing tremendous challenges. Not the least of these will be that of just working together during the weeks ahead.

The present situation is unique in our lifetimes. The State could be hurt by it. I am convinced it will not be. I'm convinced because I know so many of you already, and I know what kind of men and women you are. I know that when the chips are down, you'll put North Carolina and our people first. I think you know me well enough to know I'll do the same.

I've been here, and because of that, I believe in the General Assembly.

I want to commend Speaker Jim Ramsey and Lt. Governor Jim Hunt for having moved swiftly in organizing and announcing committees and placing you in positions to begin work early.

I also endorse in principle the reforms that can make this a more effective body — electric voting machines, committee research assistance, ethics legislation and annual sessions, using a biennial budget with an annual review.

I will not propose legislation in this area because I believe legislative reform is your prerogative.

I do expect, however, to send to you shortly, recommendations for reforms and reorganization within the Executive Branch, including the Highway Commission Reorganization and an ethics bill for the executive departments.

The purpose of this message today is to talk about specific recommendations for programs and the budget. It's nearly impossible to discuss programs without talking about price tags.

Many governors have separated these two, sometimes because they needed time to figure out where to come up with the money for their programs. At this time, no delay is necessary; and since you are ready to work on the budget, I will speak to that as well.

Our State today is in the strongest fiscal position in recent times — perhaps in history. Our Constitutional requirement of a balanced budget has kept us from yielding to the temptation for deficit financing which has plagued our national government and many state governments.

As I predicted some months ago, we have the largest gross dollar increase in availability in the State's history. This comes from three sources. First, we will have the largest surplus in history. Second, we will have approximately $166 million in new funds from the revenue sharing programs. Third, and perhaps most important, is the certainty that in the 1973-1975 biennium,

we will have the largest dollar increase in revenue in the history of the State. Thus, the picture is strong on all fronts, and it clearly indicates that our strong position today is not due simply to revenue sharing.

This strong fiscal position affords us the opportunity to meet needs we have never before been able to consider. It gives us a special opportunity to lift ourselves by our own bootstraps.

The base budget, the change budget, and the capital improvements budget recommendations of the Advisory Budget Commission are on your desks this afternoon, along with the additions I propose today. I urge you to examine all of these closely. Keep a sharp pencil handy in the Appropriations Committee. By this time next year, I expect to have instituted budget reforms which make your job easier.

One thing I want to mention specifically is that the change budget calls for the creation of over 5,000 new positions in state government, including teachers. I hope you will ask each and every witness before the committee whether the agency or institution has, at this time, adequate space in which to put these new people.

I also want to assure you that a sharp pencil is going to be working in the Executive Branch to be sure we're getting the maximum service from our tax dollars. The new Efficiency Study Commission headed by Mr. Archie K. Davis of Winston-Salem, Chairman of the U. S. Chamber of Commerce, will be searching with a fine-toothed comb for ways in which state government can be more efficient.

Let us now begin to look at our opportunities: In Education, we have the cornerstone for thrusting North Carolina ahead. We might as well begin at the beginning. I propose and urge you to endorse the concept of a state-wide kindergarten program. The State Board of Education has projected a five-year plan which will give us a completed program by 1978. Phase One of that plan can be fully funded now.

Quality education means quality teachers — for good teachers are at the heart of the educational process. I'm firmly convinced we must compete, and compete successfully, in the marketplace if we expect to get and keep the best teachers. I propose that educators be given an increase in salary at the rate of five percent during the first year of the biennium, with an additional ten percent increase during the second year. I also propose major changes in the salary index schedule to make sure our money is used in the most effective way.

I also endorse and urge you to support the extension of terms for all teachers to 200 work days. I'm confident our teachers can also do a better job if we reduce the class size and place a statutory maximum limit on size. Fairness demands that teachers receive the same monthly rate of sick leave as State employees presently receive.

As the final item in what I believe is the strongest educational program in our history, I urge you to make available to local school units $50 million in matching grant money for school construction. I believe that by using this money on a 50-50 matching basis, we can take a giant step forward in

meeting the need for more classroom space and in preparing for the statewide kindergarten program. Since local governments in North Carolina will have for use in the next biennium over $300 million in revenue sharing funds, their ability to match these funds should be especially strong. This direct grant program will permit new construction without an increase in our State's public debt.

This program for our children's education is far-reaching. It places great faith in our public school system. I say to you and I say to the public school team in North Carolina, "Those to whom much is given, much is required."

"Accountability" is a word we are going to use more and more during the years ahead. When our people have one of the lowest per capita income levels in the country, they have the right to ask for proof that their tax dollars are being used for the vital things to build our State — not wasted or thrown away on frills and luxuries.

So I charge our educators to carry well their obligation to the people and to be worthy of the trust placed in them today. I specifically expect to take a hard look at how well our children are being taught to read and whether we are, in fact, doing as well as other states around the country.

I mentioned the word "fairness." This word can mean different things under various circumstances. In our present circumstances, I consider that it means that State employees should also receive a five percent increase in salary in the first year and an additional ten percent increase in the second year. That same recommendation is made for salary levels in our university system.

I also endorse the proposal to fully fund the low option hospitalization program for teachers and State employees, at a cost of $3 extra per month per person. The retirement systems for State and local government employees are in a strong position today. After consultation with various employee groups and with retirement system officials, I ask today that you provide for unreduced retirement after thirty years of service, regardless of age, and establish a five-year reserve for payment of a four percent cost-of-living increase in retirement benefit payments. I am advised that these improvements can be made in both systems without additional appropriations or increased employee contribution. I also urge you to provide for other increases in retirement benefits to the extent our retirement officials feel they are actuarially sound. I also urge you to consider statutory changes to give consideration to a graduated method of earning annual leave for State employees.

Much has been said in recent months about mental health. At least part of the challenge we face is monetary. You have copies of the change budget and my recommendations, including upgrading of attendant and cottage parent salaries, in-service training for employees, increased aid to community mental health centers, direct grants for local programs for emotionally disturbed children, and compensation for work done by patients. My recommendations almost double those of the Advisory Budget Commission and these combined recommendations will thrust some thirty million new dollars into our mental health program in critical areas.

Not all of the problem is money, however. I will shortly propose a completely independent study of our entire mental health system by a team of specialists from outside our State. I also hope this General Assembly will examine closely the statutes relating to incompetency, admission and commitment, discharge, and patients' rights.

One of the great opportunities we have in North Carolina is in the protection of our environment. We can win the battle in North Carolina if we begin now. One specific weapon in this battle will be our State park system. I urge you to place our present park system into the preserve provided for in the new Environmental Bill of Rights. We need to continue study to locate park sites for maximum use by our citizens. Much of our past effort in the park system has come as land has been given to us. We want to encourage more of this, and yet we can't wait for it to fall into our laps.

It's time to make a solid financial commitment to a park system which will, for years to come, give our people buffers against the fast-developing times in which we live. Our State Parks Division has asked for $11.5 million for ten new and ten expanded parks, and I urge you to approve the entire request. This represents more than the total amount spent by the State for park land acquisition in this century. This will only be the first step in our program for parks, but it is a vital step forward which must be taken now while there is time. Parks are not the only weapons. Land use planning on a regional basis will be vital. We can't wait if we're to win the battle other states have already lost.

We also need the tool of required reporting of waste discharge levels if we are ever to expect the Board of Water and Air Resources to do the job we want from them. A land registration act is essential if we are to protect our land and our people from unscrupulous promoters.

Let us also look hard at our society and our desire for civilized order. I endorse the proposal for a minimum salary level for local law enforcement officers, together with the one-time matching grant to get this program going.

I also endorse the great majority of the recommendations of the North Carolina Bar Association's Penal System Study Committee and say to you that prison reform is one of the best tools for law and order. My proposals and those of the Advisory Budget Commission will go far in providing single-cell confinement, consolidation of probation and after-care for delinquent young people, job assistance and placement programs, a decrease in the probation caseload, in-service training, additional security personnel, and vocational training facilities. These programs should help to slow the "repeat rate" which has far too many prisoners confined for the second time or more, and it should help make our streets and homes safer places.

When we speak of our homes and families, we should also remind ourselves that the plague of drug abuse is spiraling. I urge you to increase the allocation of new narcotics agents recommended in the S.B.I. budget. I will also recommend to you shortly a drug education program aimed toward the goal of an informed citizenry.

Time does not permit detailed statements regarding every proposal, but some must be discussed. I endorse a campaign spending limit for statewide campaigns and will present a proposal shortly. I endorse the equal rights amendment and ask you to consider it at an early date. I endorse the veto power for the governor, although this can be considered in proper perspective only if the effective date is 1977.

I will make a specific recommendation to you concerning the Housing Corporation as soon as the effect of the recent change in the federal housing program is determined. I will propose a change in the method of selection of the Wildlife Resources Commission to give hunters and fishermen a greater voice in this process.

I will propose action to protect the Appalachian Trails System from encroachment which could seriously damage a vital recreational asset. I will propose a comprehensive new program for health services, aimed at delivery of medical care to our rural areas across the State.

In our battle for highway safety, one weapon will do more than any other to get drunk drivers off our roads — the breathalyzer. I urge you to remove the loopholes in the implied consent statute and to provide for mandatory license revocation for refusal to take the breathalyzer test. I say to you, having served as a defense attorney and having watched this law at work in our courts, until you remove the three-day period for hearing requests, you have not done the job for highway safety.

I have left until last our program for education beyond the high school. I endorse the recommendation of the Advisory Budget Commission for a $29 million increase in operating funds for the community college system. I also propose an additional $15.1 million in capital funds to honor the State's original commitment in 1963 for original capital funds to each new institution. I urge you, however, to retain our present policy of requiring that any additional capital funds beyond this original amount be raised locally.

In looking at the change and capital budgets for the university system, you will find the new format used for the first time. It is in keeping with the governing board concept adopted by the 1971 General Assembly. The budget recommendations do not meet some of the essential needs in our university system, and I urge you to add an additional $11 million for the Number I priorities in the change budget.

I urge you to examine the upcoming report of the Board of Governors concerning aid to students attending private institutions, in the hope it will justify expansion of our support for this new program.

This General Assembly has the opportunity to go down in history. The beginning of a statewide kindergarten program, the bold thrust for State parks, a major new effort for education, a new awakening in our mental health efforts, health efforts, land use planning, and others can be lasting, living monuments to this 1973 Legislature.

But, ladies and gentlemen, our history books may well say that the most lasting result of the 1973 Legislature was your determination to protect the concept of our new university system. This new system was carefully molded in 1971 by a General Assembly which set aside all secondary considerations in its finest hour of statesmanship. I urge you to defend the new university system and its Board of Governors and prove to the people of North Carolina that we will stand behind the commitment we made here in 1971.

In closing, let me come back to the financial picture we face. I have outlined a bold new program which sweeps across the wide spectrum of State responsibilities. It is a balanced budget. I've taken a long, hard look at our people's needs and have turned away from the temptation to propose a broad attack upon our tax base.

These programs I have outlined, together with the recommendations of the Advisory Budget Commission, include over $210 million in non-recurring expense items, giving us a safety valve if there is change in the economy or any reversal as far as the revenue sharing concept is concerned.

I stand firmly behind my proposal to repeal the medicine tax, removing a tax on misery while costing the State only $8 million. I also urge you to keep an open mind to the possibility of other limited tax cuts. Cuts can still come if the examination of the base budget yields adequate resources or if our fiscal situation improves to offer additional resources.

We have gone far in meeting the people's needs, and some tax relief may still be within the realm of possibility. I wish to thank the Advisory Budget Commission for the many hours of hard work which have gone into the preparation of the budget. I also extend my hand to you, pledging my cooperation in a full partnership to meeting the challenges we face together.

The people of North Carolina are counting on us, and I am confident we won't let them down.

ADDRESS TO THE NORTH CAROLINA GENERAL ASSEMBLY IN JOINT SESSION BY GOVERNOR JAMES E. HOLSHOUSER, JR. APRIL 12, 1973

One of the most serious problems facing our State is the delivery of medical care. It is a very human problem. It is a very familiar problem. It nags at all of us because it affects our people's most priceless possessions — their lives and their health.

Far too many of our citizens — particularly in rural areas — are unable to get the medical care they need simply because it is not available to them within a reasonable distance. It is a problem that has reached critical proportions in some areas of North Carolina. And it is a problem that will only get worse — not better — unless we recognize it and move to meet it.

There is no need for me to go into great detail documenting this problem or the urgent need for solutions. You know the statistics. You have seen the problem first-hand. You know that in many of our rural counties in

all parts of the State, the ratio of patients to physician is several times greater than that generally acceptable for each doctor. You know, too, that the problem will get worse because in many of these rural counties and communities, the doctors are preparing to retire and replacements are not available.

Statistics in 1970, for example, showed that there was one doctor in Clay County for its 5,180 citizens — and he was over sixty-five years old. The ratio of patients to physician was 2,286 to one in Madison County, 4,890 to one in Jones County, 5,571 to one in Hyde County, 8,351 to one in Perquimans County, and so on.

We have studied the problem from many directions. We have examined new types of medical personnel to augment our supply of doctors — physician's assistants or para-medics, family nursing practitioners and the like.

We have looked at this problem from the standpoint of training more doctors. We can argue endlessly on the expansion of the University of North Carolina Medical School versus the East Carolina University Medical School. Yet even if we tripled the number of doctors tomorrow, the problem would still be with us. It is not simply a question of getting more doctors; it is a question of encouraging distribution of doctors and other medical personnel so that all our citizens can be assured of modern, adequate care.

The problem of uneven distribution of medical care is not unique to North Carolina, nor is it confined to the United States. The doctor shortage in rural areas is a worldwide problem. It is one of the unhappy ironies of our times that while new medical miracles are being achieved almost every day, our rural and small-town residents cannot count on the kind of day-to-day medical attention that their parents, even their grandparents, received.

The reasons for the shortage of doctors in rural areas and small towns are many and complex. But we must accept the fact that the day of the country doctor who was willing to work alone, day and night, is gone.

We must realize that we cannot expect a doctor to move in and set up practice in every one of our small communities. Therefore, we must develop other ways to organize and distribute medical services. We must develop a program, or programs, that will reach all the people. Whether it's the farmer, the low-income family in the city, or the average citizen in a small town, we must place medical care within his reach.

Finally, we must recognize the fact that because it is a complicated problem with many facets, there is no single simple solution waiting around the corner. I have listened to many of you on this subject, and I have listened to the people. We all agree that the problem is reaching crisis proportions. Therefore, we cannot be satisfied to try one thing and see if it works. We must attack this problem from as many different sides as we can.

Today, I would like to propose to you a broad comprehensive program. It is not a cure-all. But it is a program that will provide us with positive, firm steps that we can take *now* toward our ultimate objectives.

First, we will establish a network of primary medical care clinics across our State. New kinds of health care personnel are being trained to help extend medical services. These include the family nurse practitioners and the physicians' assistants and associates. In several places in the State, specially trained family nurse practitioners have been working in rural clinics with the supervision and backup of physicians and hospitals in nearby towns and cities.

Real success stories are being told by rural primary health care clinics of this type in such places as Madison County and the Walstonburg community in Greene County. The medical experts tell us that family nurse practitioners can do a very high percentage of the clinic work so long as they have this supervision and backup support. Through these centers, the means also can be worked out so that the people can get to a doctor quickly and easily when an emergency or serious problem arises. These primary care centers are working because they have the support of the community. In Walstonburg and Madison County, the people did most of the work to obtain the necessary facilities and personnel. These experimental clinics were established through federal grants.

A second part of the program involves Area Health Education Centers. This is proving to be another valuable tool. Under a five-year, eight and a half-million-dollar federal contract, an Area Health Education System is being developed throughout the State.

At present, there are five such centers in operation. They are at Wilmington, Charlotte, Raleigh, a combination of four hospitals in Roanoke Rapids, Rocky Mount, Tarboro and Wilson, and another developing in Asheville. Under this program, the University Medical Center works with the local hospitals in training health workers of various kinds at the community level. These centers, in turn, can be expected to train and attract more health professionals into their areas.

This program has several exciting facets. For one thing it gives medical students from the large medical center experience in the field, on the front line of primary care medicine. In a number of instances, students have already decided to settle in the communities where they received this experience. But the AHEC program's reach doesn't end at the point of the city hospitals. It extends from there out into the smaller communities and rural areas, usually covering six to nine counties. Training programs are now being developed by the doctors, nurses and hospital administrators in these centers to staff satellite clinics in their regions.

Thus we have an ever-widening circle. At the center is the Area Health Education Center, linked on one side with the major medical center and tied at the other to satellite clinics providing primary care to the people in the rural communities and on the farms.

We expect this program to utilize the resources of all our medical schools, public and private. We can visualize its moving simultaneously in two ways: one, a further expansion of the Area Health Education Center system, spawning its own satellite clinics; and two, the local community development of primary care clinics which are then linked to a nearby

hospital. In each case, family nurse practitioners or similar para-medical personnel would be recruited — primarily in their own communities — trained and put to work.

Both the rural health clinic program and the Area Health Education Center program are pilot projects funded on an experimental basis by the federal government. With our help, these efforts can be expanded to provide medical care for all North Carolinians. The time is at hand for the State of North Carolina to take specific action to drive them forward.

The rural communities are looking to us for help. The regional clinic concept requires the active participation and initiative of local citizens. By assisting them in the organization and financing of increasing numbers of primary care clinics, we can move firmly in the direction of providing our rural and small-town citizens with better medical care.

This means someone must take the active role and responsibility. I propose that we establish a new office within the Department of Human Resources to begin this effort to expand these programs. This new office would be charged with putting into operation fifteen rural clinics within the next two years. To accomplish this, we estimate that it will cost less than a half million dollars in the first year and a little over one million dollars in the second year.

These funds would provide for a special assistant to the Secretary of Human Resources and a small supportive staff. They would pay for technical assistance in development of rural health systems, community organization and facility planning. Five rural health clinics would be established the first year and ten the second year. Other funds would be used to provide training grants for fifteen family nurse practitioners in the first year and thirty in the second year. If other funds should become available, these goals may be expanded.

There are other programs that we should encourage and support if we are to do the job. One is the Medical Care Commission's Incentive Loan Program, designed to interest more young people to go into health careers and to practice in North Carolina. This has proven to be successful, even with very modest funding. Seventy-seven physicians graduating under the program are practicing or have completed practices of one to four years in our rural communities. All told, the medical care situation in eighty-three communities and fifty-seven counties has been benefited from this program.

We also should strengthen our chances that students selected to receive these loans or grants will fulfill their commitments and are genuinely interested in staying in North Carolina. This can be accomplished by a more in-depth student survey system to measure the depth of their commitment to North Carolina. This same concept should be expanded from the student to the resident and graduate physician. Legislation now before you calls for a pilot program to provide direct grants to medical school graduates who agree to practice in medically deprived areas of this State. This legislation asks for a modest appropriation. I urge your support of it. I

also ask that you give your support to the continuation of grants to private medical schools.

In addition to these programs, we must do more to encourage our medical schools, both public and private, to emphasize training in the primary care areas of medicine, the family practitioners, internists and pediatricians. I understand that a member of the Senate has already prepared specific legislation proposing incentive payments of State funds to the medical schools for their training programs in this specific area. This plan merits your careful consideration.

I mentioned earlier that the shortage of medical care in rural areas and small communities is complex. The program I have outlined in brief deals with a major part of the problem. But it does not touch all the complexities, many of which stem from human nature and the development of modern society. We must admit the fact that doctors and their families want to live where they will have access to first-class educational and cultural programs. We can make it possible for every child in North Carolina to have a quality education. We can take music, art and other forms of culture to every corner of our State.

And now, allow me to return for just a moment to the program I have discussed. You have noticed, I am sure, that I have not talked about a lot of money. What I have talked about is a program that will bring together many components, many people, and various levels of responsibility into a statewide plan.

By moving the medical education process into regional efforts, we will open new horizons to all parts of the State. By establishing a new office in the Human Resources Department, we will see these health services directed to the places where the greatest need exists. With local community involvement, State coordination and by utilizing available federal funds, we will make the best use of all the resources at our command.

These programs already have strong support from leaders of the medical profession in our State. Dr. Jacob Koomen, our State Health Director, and his staff helped to develop the program. All of the medical schools in the State are already involved in the Area Health Education Center program.

This program did not develop overnight. It will not be solved overnight. But we must begin.

STATEMENT BY REPRESENTATIVE HERBERT L. HYDE
APRIL 11, 1973

Mr. Speaker, Ladies and Gentlemen of the House:

You may have noticed the morning paper and read something in there about me. I want you to disabuse your minds at the moment about that. I have no humor whatever when it comes to such bills as this. If I should sound humorous, don't take it that way. I'm dead serious about this.

And, Mr. Speaker, let me say, of course, this is a local bill. And I no longer live in Swain County. I represent Buncombe and Transylvania. But this is a bill which affects my people, my kinfolks, my friends, my Cherokee cousins and I must speak concerning it.

This is an iniquitous bill, Ladies and Gentlemen of the House, and ought not to pass. The present statute 14-197 reads — and I'll try to read it the best I can — I don't understand it but I'll read it anyhow — "If any person shall, on any public road or highway and in the hearing of two or more persons in a loud and boisterous manner use indecent or profane language, he shall be guilty of a misdemeanor" and put in jail.

Now, it doesn't say what's profane. And it doesn't say what's indecent. And I don't know. And most folks in Swain County don't know. And if you pass this you are going to put 'em in jeopardy.

Now, Mr. Speaker, I have come up here thinking that perhaps I ought to amend this bill and let it pass, out of deference to those who had offered it. And I thought about it and drew some amendments. But I know how these amendments come in and folks think you're just trying to play around or be humorous or something and I'm not going to offer them. But I'm going to try and tell you about them so you'll understand why I object.

Now, the first amendment would have read "Provided, however, (that as to Swain County) that this act shall not apply to any person who drives a steer, rides a mule or runs for public office." Mr. Speaker, I'm telling you, if you've ever tried to work a mule, you know what I'm talking about. A fellow's got to — my Uncle Fidilly Hyde, well, his name was Fidel but we called him Fide for short, Uncle Fide Hyde, great uncle, great uncle. And there wasn't anything great about him except the relationship, now, you understand. But he told me that any man who had to work around a mule ought not to try to be a preacher 'cause he was bound to cuss, and that's true. I've seen a lot of mules and tried to work 'em.

I'm talking about mules — for the benefit of you folks back here — not donkeys. That's different. Now, a donkey is a proud animal. He has a great ancestry. But a mule, as you know, he didn't come from nowhere and he ain't going nowhere. He's without pride of ancestry or hope of posterity. It's no wonder — it's no wonder they're cantankerous. I've seen mules, Mr. Speaker, about as cantankerous, almost not quite, as a back row Legislator with a resolution in his hand.

And if you've ever seen one try to eat sawbriers through a picket fence — reminds me of John Ingram when he appears before the Insurance Committee — that grin out there like that.

Now this language in this bill is so indefinite, I thought perhaps if you all didn't adopt that amendment I would offer another one which is equally vague — as vague as the bill itself — which reads "Provided, however, that this act shall not apply in any case where there is sufficient provocation." Then, you know, if you get mad enough, you cuss — with impunity.

But now let's get down to this. I've heard some talk that took place over in the Senate about the Cherokee Indians. And I know the Cherokees. I've lived among them and I talk a little Cherokee. But I don't cuss in it. Now, you can't cuss in Cherokee. That's misinformation. Cherokee is a beautiful, romantic language. It has no harsh, percussive sounds in it. The only letter where you have to close your lips in Cherokee is the letter "M". You can talk all day and smile. You can, you know, give the other feller a rough time but you smile at him all the time. You might scalp him, but you're still smiling, you see, while you're at it.

But the Cherokees don't cuss and most Swain County folks don't cuss — publicly. Senator Crawford just swore to me the other day that he lived there twenty-five years and never heard anybody cuss. That's what he said. 'Course you know about these Senators. They put you on sometimes.

What we come down to is this, though: This act is obviously unconstitutional. No question about it. But the folks in Swain wouldn't want me to stand on that kind of technicality and I'm not going to do that. Most of 'em don't like technicalities when they get in court anyhow themselves and they, they wouldn't want me to do that. So we'll skip over that. And as between us, we'll forget it.

But there ought to be a refuge somewhere, where a man could go and when he really is provoked that he can say something with impunity. There's only two places left — Pitt and Swain. One in the East and one in the West. I think it's most appropriate.

I wanted to call your attention to this. Talking about the Cherokees and I've got W. H. Arthur's "History of Western North Carolina" here in front of me and on page 567, if anybody wants to check it, he's trying — now, he's got a lot of myths in here, there's a lot of folks read this and believe it — maybe ought not to do that but, now *this* is probably so — he is trying to draw a parallel — he says that the Cherokees are the lost tribe of Israel. I don't believe that. But he's got some things in here — he says, "They had annual festivals, performed morning and evening sacrifices, offered their first fruits to God, and there were cities of refuge to which offenders might fly and be safe."

That's up in Swain County, among the Cherokees.

That's all I want — a place of refuge, a sanctuary where a man can go and cuss with impunity. Now that ought not to be too much to ask, I shouldn't think. Most folks get provoked sometimes and say a little something wrong.

And now let's get into the history of this bill. In 1913 this bill was offered and in this House at that time was a grand old gentleman from the mountains. He was a foot-stomping, fire-breathing, fearsome Republican. Otherwise, he was a pretty good fellow. Mr. Gala Ferguson. I knew him. He was a great fellow. He came down here representing Swain County and this bill was passed and 27 counties were exempted.

Now, Mr. Ferguson was a humane individual. He understood the frailties of human nature. And we all have our little sins and foibles. He knew that. He was a mountain man. And so he exempted Swain County.

And for sixty years it's been exempt. And now comes down here — I'm sorry to have to say — some Republican Senators and offers this bill. And the folks at home, now, are not going to think too kindly of that. I'm afraid they're going to say they've mistrusted their friends. It reminds me of the book in the Bible — Zechariah, about the 13th chapter, 6th verse, Mr. President, and it says this: "And then one shall ask Him, 'What are those wounds in thine hands?' And He shall answer: 'The wounds that I received in the house of my friends.'"

And I'm afraid the folks in Swain are going to think that about these people.

You know, really, we're sacrificing the good name of a great county here by even suggesting that these folks are going to get out on the streets and highways in a loud and boisterous voice using indecent and profane language.

Shakespeare once said — if I can quote it correctly, he said:

"Who steals my purse, steals trash. 'Tis something, Nothing. 'Twas mine, 'tis his and has been slave to thousands.

But he who filches from me my good name

Robs me of that which not enriches him and makes me poor indeed."

Now Swain County is a poor little county. It's got very little left. Nothing except its liberty. And if you should take that away, and if you should filch from her, her good name, she would be poor indeed.

Mr. Speaker, I say to this General Assembly:

Do not heap this indignity upon her fair head.

Let her stand once again and lift her head in pride.

Let her go forth — even as an innocent woman, in virtue —

Unsullied, unharmed and undamned by this iniquitous bill.

H. R. 47. A HOUSE RESOLUTION DIRECTING THE HOUSE ROADS COMMITTEE TO CONDUCT A STUDY OF THE PROBLEMS OF THE STATE HIGHWAY COMMISSION AND THE DEPARTMENT OF TRANSPORATION.

Whereas, it is desirable that the problems of the State Highway Commission and the Department Transportation be studied and reviewed to determine how the Commission can better carry out its duties and how it may be made to be more responsive to the needs of the State: Now, therefore, be it resolved by the House of Reprsentatives:

Section 1. The House Roads Committee is hereby directed to conduct a study of the problems of the State Highway Commission and the Department of Transportation, including personnel, right of way, and priorities for expenditure of funds for maintenance and construction. After completing its study, the House Roads Committee shall make recommendations for new laws, changes in organizational structure, and other recommenda-

tions to enable the State Highway Commission and the Department of Transportation to better carry out its duties and be more responsive to the needs of the people of the State of North Carolina.

Sec. 2. The House Roads Committee shall give priority to this study and shall make its report of findings and recommendations to the 1973 House of Representatives as early as possible but in no event later than April 1, 1973.

Sec. 3. This resolution shall become effective upon adoption.

H. R. 48. A HOUSE RESOLUTION TO DIRECT THE STATE PERSONNEL COMMITTEE TO STUDY AND REVISE THE STATE PERSONNEL SYSTEM TO PROVIDE SECURITY FOR CAREER EMPLOYEES.

Whereas, the General Assembly of North Carolina and particularly the House of Representatives is dedicated to providing job security for loyal, dedicated and efficient career State employees; and

Whereas, there are approximately 51,000 State employees in North Carolina who are employed under the provisions of Chapter 126 of the General Statutes of North Carolina; and

Whereas, for the protection of career State employees the General Assembly has heretofore established a State Personnel Board, which in addition to other powers and duties, is authorized pursuant to G. S. 126-4(9) to hear appeals from "applicants, employees and former employees" and to issue "advisory recommendations in all appeal cases"; and

Whereas, the administrative procedures for such hearings, including the right of State employees to procure and present evidence, should be part of the substantive law of Chapter 126 of the General Statutes; and

Whereas, the procedure of Chapter 126 may fail to protect career State employees from unmerited dismissal, transfer or demotion:

Now, therefore, be it resolved that the House of Representatives:

Section 1. The House of Representatives directs the State Personnel Committee to study Chapter 126 of the General Statutes of North Carolina and to recommend by appropriate legislation such revisions as may be required to accomplish the purpose of this resolution and to provide adequate protection against unfair and unmerited dismissal, transfer, or demotion to career State employees of North Carolina.

Sec. 2. The results and recommendations of the Committee's study shall be presented to the House of Representatives as soon as practicable but in no event later than March 15, 1973.

Sec. 3. This resolution shall become effective upon adoption.

H. R. 93. A HOUSE RESOLUTION DIRECTING THE HOUSE COMMITTEE ON ELECTION LAWS TO STUDY CAMPAIGN SPENDING AND TO DEVISE LEGISLATION TO CONTROL CAMPAIGN SPENDING.

Whereas, campaign spending has increased at a phenomenal and frightening rate and far beyond the general rate of inflation in the economy; and

Whereas, the people of North Carolina, both political parties and candidates for office have expressed concern at this development; and

Whereas, the House of Representatives of the 1973 General Assembly deems it essential to maintain the confidence of the people in their elected representatives and in their ability to function in the interests of all of the people of the State of North Carolina;

Now, therefore, be it resolved by the House of Representatives:

Section 1. The House Committee on Election Laws is hereby directed to study campaign spending and to devise legislation to control campaign spending.

Sec. 1A. The House Committee on Election Laws, in its study, shall satisfy itself as to the constitutionality of controlling campaign spending giving due consideration to the first amendment to the Constitution of the United States.

Sec. 2. The House Committee on Election Laws shall offer to the House as soon as feasible a proposal for such legislation.

Sec. 3. This resolution shall become effective upon its adoption.

H. R. 113. A HOUSE RESOLUTION TO IMPROVE THE ETHICAL QUALITY OF NORTH CAROLINA STATE GOVERNMENT.

Whereas, it is important that democratic governments have and deserve the confidence of the governed people; and

Whereas, it is particularly important that elective and high appointive officials understand and conform to high ethical standards in the performance of their governmental duties; and

Whereas, the General Assembly believes that the time has come to articulate ethical standards and to develop procedures for enforcing adherence to these standards by elective and appointive State officials:

Now, therefore, be it resolved by the House of Representatives:

Section 1. That the Committee on Rules and Operation of the House is directed to study the question of governmental ethics as it relates to elective and appointive officials in all of the three great branches of State government.

Sec. 2. The committee shall prepare and present to the General Assembly not later than April 1, 1973, a bill or bills to articulate ethical standards governing elective and appointive officials in all branches of State government, and to provide machinery and procedures for enforcing adherence to those standards.

Sec. 3. This resolution shall become effective upon adoption.

H. R. 114. A HOUSE RESOLUTION PROVIDING FOR A REVIEW OF THE ORGANIZATION AND STRUCTURE OF THE WILDLIFE RESOURCES COMMISSION.

Whereas, the organization, structure, policies, duties and functions of the North Carolina Wildlife Commission have been subject to debate during recent weeks; and

Whereas, it is in the best interest of the North Carolina Wildlife Commission, its employees and the State of North Carolina that a review be made of the organization, structure, policies, duties and functions of the Commission;

Now therefore, be it resolved by the House of Representatives:

Section 1. The appropriate committee of the House of Representatives is directed to review the organization and structure of the Wildlife Resources Commission with a view to determining what changes, if any, should be made in order to improve the effectiveness of that Commission in serving the needs of the people of the State.

Sec. 2. The committee shall prepare and submit to the General Assembly not later than April 1, 1973, a bill or bills to make such changes in the organization and structure of the Wildlife Resources Commission as the committee shall deem appropriate.

Sec. 3. This resolution shall become effective upon adoption.

H. R. 115. A HOUSE RESOLUTION DIRECTING HOUSE COMMITTEE ON SOCIAL SERVICES TO INVESTIGATE AND REPORT ON REFORM AND IMPROVEMENT IN WELFARE PROGRAM.

Whereas, the number of citizens receiving welfare assistance, particularly in the program of Aid to Families with Dependent Children, has increased substantially over the past several years; and

Whereas, many recipients are capable of productive employment if given the opportunity;

Now, therefore, be it resolved by the House of Representatives:

Section 1. The Committee on Social Services shall investigate the welfare programs administered by the State, particularly the Aid to Families with Dependent Children program, with a view toward preparing legislation designed to create more incentive and employment opportunity for welfare recipients.

Sec. 2. The Committee shall report its findings and conclusions to the House of Representatives by April 1, 1973.

Sec. 3. This Resolution shall become effective upon its adoption.

H. R. 158. A HOUSE RESOLUTION HONORING THE SYLVA WEBSTER HIGH SCHOOL BAND FOR ITS OUTSTANDING ACCOMPLISHMENTS IN MUSIC.

Whereas, the Sylva Webster Golden Eagle Band has brought honor to the State of North Carolina for its outstanding record compiled over the past several years; and,

Whereas, Sylva Webster Band won first place in Class A at the Cary Band Festival in November, 1972; and,

Whereas, the Band has won a "Superior" rating at the Southeastern Band Festival in Bristol, Virginia, for the past five consecutive years; and,

RULE 4. *Approval of Journal.* The Rules Committee shall cause the Journal of the House to be examined daily before the hour of convening to determine if the proceedings of the previous day have been correctly recorded.

However, the House may, by consent of a majority of the members present, suspend the operation of this rule during any debate on any particular question before the House, or the Rules Committee may bring in a special rule that shall be applicable to the debate on any bill.

RULE 11. *Reading of Papers.* When there is a call for the reading of a paper which has been read in the House, and there is objection to such reading, the question shall be determined by a majority vote of the members of the House present. (b) Every member who is in the Hall of the House when the question is put shall give his vote upon a call of the ayes and noes, unless the House for special reasons shall excuse him and no application to be excused from voting or to explain a vote shall be entertained unless made before the call of the roll. The explanation of a vote shall be limited to 60 seconds.

RULE 25. *Voting by Absentees.* (a) No member shall vote on any question when he was not present when the question was put by the Speaker, except by the consent of the House.

RULE 60. *Limitation on Co-sponsorship of Bills and Resolutions.* Any member wishing to co-sponsor a bill or resolution which has been intro-

duced may do so by appearing in the office of the Principal Clerk for such purpose within one-half hour following the adjournment of the session during which such bill or resolution was introduced.

RULE 61. *Correcting of Typographical Errors.* The Legislative Services Officer may correct typographical errors appearing in House bills or resolutions provided that such corrections are made before ratification and do not conflict with any actions or rules of the Senate and provided further that such correction be approved by the Chairman of the Rules Committee, the Speaker or other presiding officer.

Section 1. This resolution shall become effective upon adoption.

H. R. 430. A HOUSE RESOLUTION CALLING FOR THE HOUSE EDUCATION COMMITTEE TO STUDY THE MATTER OF CERTIFICATION STANDARDS FOR PUBLIC SCHOOL PERSONNEL.

Whereas, the general public demands and will support high quality educational opportunity offered the children of the State; and

Whereas, the quality of instruction in the public schools depends greatly on the total competence of teachers; and

Whereas, the need exists for an understanding of the certification standards to assure general public acceptance of the standards and in order to assure adequate public support of the public school system;

Now, therefore, be it resolved by the House of Representatives:

Section 1. The Education Committee of the House of Representatives shall conduct a study of the issues involved to better inform the members of the General Assembly and the public of the facts involved and to make any recommendations deemed appropriate to the State Board of Education for its consideration.

Sec. 2. The Committee shall prepare and present to the General Assembly not later than April 1, 1973, such recommendation as it deems appropriate.

Sec. 3. This resolution shall become effective upon adoption.

H. J. R. 475. A JOINT RESOLUTION HONORING ARTHUR E. JUSTICE, JR., FOR HEROIC ACHIEVEMENT.

Whereas, on August 22, 1972, Arthur E. Justice, Jr., while vacationing at the beach at Nags Head, North Carolina, with his family, heard the cries of distress of two people in the ocean. Without regard for his own personal safety, he entered the water and saved the two people from drowning; and

Whereas, he had received training in lifesaving as a Life Scout while a member of the Boy Scouts of America, Troop 901, Sylva, North Carolina; and

Whereas, as a result of his act of courage he was awarded the Distinguished Citizens Award by the Governor of the State of North Carolina on February 10, 1973; and

Whereas, Arthur E. Justice, Jr., is the only Boy Scout in Western North Carolina to receive a Lifesaving Medal; and

Whereas, he has been recommended to receive the Presidential Young American Award from the President of the United States of America; and

Whereas, Arthur E. Justice, Jr., has brought honor to himself, his family, the Boy Scouts of America and to the State of North Carolina for his act of bravery.

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. That the 1973 General Assembly, representing all of the people of the State of North Carolina, extends its appreciation and congratulations to the said Arthur E. Justice, Jr., for his outstanding and heroic achievement.

Sec. 2. That a copy of this resolution be spread upon the Minutes of both the House of Representatives and the Senate, and that a copy of this resolution be duly certified by the Secretary of State and be transmitted to Arthur E. Justice, Jr.

Sec. 3. That this resolution shall become effective upon its ratification.

H. R. 907. A HOUSE RESOLUTION OPPOSING REPARATIONS BY THE GOVERNMENT OF THE UNITED STATES TO NORTH VIETNAM.

Whereas, the President of the United States has stated he will use his authority to send billions of our tax dollars as reparations to North Vietnam; and

Whereas, the United States has already spent over one hundred thirty-five billion dollars ($135,000,000) of our tax dollars fighting that same government of North Vietnam; and

Whereas, more importantly, 46,000 Americans have given their lives and many others their limbs to fight that same government of North Vietnam, the real and recognized enemy in the Vietnam conflict; and

Whereas, the same government of North Vietnam has a record of violating past agreements and have yet to forswear their intention of controlling all of Indochina; and

Whereas, the money proposed to be diverted to North Vietnam can better be spent to provide for the many unmet domestic needs of the people of North Carolina and the United States; and

Whereas, such a proposal represents a callous disregard for national priorities on the part of the President; and

Whereas, such proposal reflects an unusually indifferent attitude on the part of the President toward the people of this country; and

Whereas, the House of Representatives of North Carolina appreciates the sacrifices made by so many Americans who gave their lives, limbs and freedom for the freedom of the people of South Vietnam and believes that

the resources of this country should first be used to provide for the needs of the people of the United States and North Carolina:

Now, therefore, be it resolved by the House of Representatives:

Section 1. The House of Representatives of North Carolina expresses its disappointment in the President's plan to send American tax dollars to rebuild the territory of our communist enemy while dismantling so many of our own hopes for economic progress.

Sec. 2. The House of Representatives of North Carolina memorializes the Congress of the United States to reorder our national priorities and to refuse to make such reparations as requested by the President of the United States.

Sec. 3. The Secretary of State is hereby directed to prepare and deliver certified copies of this resolution to the President of the United States and to all United States Senators and Congressmen of the State of North Carolina.

Sec. 4. This resolution shall become effective upon adoption.

H. R. 997. A HOUSE RESOLUTION REQUESTING THE NORTH CAROLINA WILDLIFE RESOURCES COMMISSION TO STUDY THE FEASIBILITY OF DEVELOPING A PROGRAM TO PROVIDE FOR THE TITLING OF MOTORBOATS SUBJECT TO THE NORTH CAROLINA BOATING SAFETY ACT.

Whereas, each year the problem of theft of motorboats, and outboard motors, becomes greater; and

Whereas, the system of numbering motorboats does not require proof of ownership; and

Whereas, the absence of proof of ownership can facilitate fraudulent insurance claims; and

Whereas, titling, as administered in the State of Florida, and others, requires proof of ownership for the transfer of motorboats; and

Whereas, titling can be an effective deterrent to motorboat theft, and would expedite the recovery of stolen boats; Now, therefore, be it resolved by the House of Representatives:

Section 1. The Wildlife Resources Commission is requested to make a study of and to report the feasibility of developing a program to provide for the titling of motorboats subject to the North Carolina Boating Safety Act.

Sec. 2. The Wildlife Resources Commission is requested to make a report to the Speaker of the House no later than February 1, 1974, in the event the General Assembly meets in 1974. In the event the General Assembly does not meet in 1974, said report shall be filed on or before February 1, 1975.

Sec. 3. This resolution shall become effective upon adoption.

H. R. 1077. A HOUSE RESOLUTION DIRECTING THE STATE BOARD OF SOCIAL SERVICES TO CONDUCT A STUDY OF THE COST OF LIVING.

Whereas, the base that is used for the standard public assistance budget was established more than two decades ago; and

Whereas, since that time while there have been changes in the basic allowances, the last of which was in January, 1970, always the base budget has been used as the reference point; and

Whereas, the cost of living has climbed steadily in the intervening years; and

Whereas, the Office of the State Budget presently conducts research to produce time-series cost-of-living indexes for North Carolina which would be useful in monitoring changes in the basic minimum subsistence level cost-of-living, once established:

Now, therefore, be it resolved by the House of Representatives:

Section 1. The State Board of Social Services is hereby directed to make a thorough study of the current cost of living in North Carolina for the purpose of assessing the actual cost of living on a minimum subsistence level.

Sec. 2. The Board is further directed to utilize the available resources of the Office of the State Budget in conducting this study.

Sec. 3. The Board is further directed to report its findings to the Joint Appropriations Committee of the General Assembly and to the House Social Services Committee in January, 1974.

Sec. 4. This resolution shall become effective upon its adoption.

H. R. 1103. A HOUSE RESOLUTION TO PROVIDE FOR AN INTERIM STUDY AND REPORT CONCERNING PRESENT METHODS AND SUITABLE ALTERNATIVE METHODS OF PROVIDING FOR THE STATE AUTOMOBILE AND GENERAL LIABILITY INSURANCE AND STATE EMPLOYEES GROUP HEALTH, ACCIDENT AND LIFE INSURANCE, AND A FURTHER STUDY OF THE TORT CLAIMS ACT.

Whereas, the State of North Carolina owns and operates on the highways of this State 18,000 motor vehicles, in addition to which there are 11,000 school buses and school service vehicles; and

Whereas, there are three different major systems for the processing of tort claims against the State and the county boards of education, by self-insurance with claims paid by each agency of the State for non-vehicular accidents, by self-insurance with claims paid by the State Board of Education for school bus accidents, and by insurance under a retrospective policy for vehicular accidents which costs approximately one hundred twenty percent (120%) of the actual claims covered; and

Whereas, the several different systems for the handling of tort claims cause unnecessary delays in the payment of claims; and

Whereas, over the years, various agencies have purchased some 20 specific additional liability insurance policies, all of which have limits of liability in excess of the limits prescribed under the State Tort Claims Act, those policies being intended for the benefit of individual State employees who are subject to personal liability for their negligent acts; and

Whereas, these many different liability policies have created inequities as to State employees who are personally liable for their acts; and

Whereby, the State of North Carolina expended one million six hundred twenty thousand seven hundred sixty-six dollars ($1,620,766) for additional insurance in all categories for the calendar year beginning January 1, 1972, and ending December 31, 1972; and

Whereas, the breakdown of such insurance is as follows:

Auto Liability	$1,110,800
General Liability	16,676
Airplanes	28,256
Inland Marine	50,157
Malpractice	4,816
Bonding	10,600
Comprehensive & Collision	3,774
Miscellaneous	21,871
N. C. State Ports Authority	76,370
Re-insurance — State Property Fire Insurance Fund	233,399
Boiler	17,300; and

Whereas, the General Assembly of North Carolina is asked to appropriate over seventeen million five hundred thousand dollars ($17,500,000) for the purchase of hospital and medical insurance for teachers and State employees; and

Whereas, the State of North Carolina is asked to furnish certain life insurance benefits for teachers and State employees from funds appropriated to the State Teachers and Employees Retirement System; and

Whereas, the Tort Claims Act, G. S. 143-291 et. seq. is in need of re-examination, study and review; and

Whereas, it is desired that a study be concluded to determine the feasibility of abolishing all State-owned liability insurance policies for the orderly administration of the State Tort Claims Act and for modifying our State employees group health and accident insurance programs and all other insurance purchased by the State of North Carolina and any of its agencies and institutions so as to make the State of North Carolina a self-insurer;

Now, therefore, be it resolved by the House of Representatives:

Section 1. The House Committee on Judiciary No. I is hereby directed to make a thorough study of the Tort Claims Act, G. S. 143-291, et. seq. and

to make recommendation to the General Assembly as to how the act and its application might be made more efficient and how claims might be paid more expeditiously. The Committee shall report to the General Assembly with its recommendations not later than February 1, 1974.

Sec. 2. The House Committee on Judiciary No. I is directed to make a thorough and comprehensive study of all State-owned insurance policies of any kind to determine the feasibility of the State of North Carolina becoming a self-insurer with regard to all risks now insured by these policies and with regard to the necessity for establishing necessary insurance reserves and administration of such self-insurance program. The said Committee is further directed to report to the General Assembly with its recommendations not later than February 1, 1974.

Sec. 3. The House Committee on Judiciary No. I is hereby directed to make a thorough study of the State employees group health and accident insurance and life insurance policies and to make recommendations concerning the feasibility of the State of North Carolina becoming a self-insurer as to the State employees group life, health and accident insurance coverage. The Committee shall report to the General Assembly with its recommendations not later than February 1, 1974.

Sec. 4. The chairman of the said Committee is authorized to appoint one or more subcommittees for the purpose of such study.

Sec. 5. This resolution shall become effective upon adoption.

H. R. 1345. A HOUSE RESOLUTION DIRECTING THE HOUSE INSURANCE COMMITTEE TO STUDY INSURANCE RATE STRUCTURES, THE AUTHORITY AND PROCEDURES OF THE COMMISSIONER OF INSURANCE TO SET AUTOMOBILE LIABILITY AND PHYSICAL DAMAGE RATES, AND THE METHODS OF DIVIDING COMMISSIONS.

Whereas, the authority of and the procedures whereby the Commissioner of Insurance determines rate structures, particularly automobile liability and physical damage rates are matters of great public concern; and

Whereas, the system of distributing commissions on the issuance and renewal of such policies is also a matter of public concern;

Now, therefore, be it resolved by the House of Representatives:

Section 1. The House Insurance Committee is directed to study insurance rate structures, the authority and procedures of the Commissioner of Insurance with regard to the setting of rates for automobile liability and physical damage insurance, and the methods whereby insurance commissions on the issuance and renewal of such policies are apportioned between agents and insurers.

Sec. 2. Said study shall be completed, and a report submitted to the House of Representatives not later than January 31, 1974.

Sec. 3. This resolution shall become effective upon adoption.
